SUMMARY

Full Stack Developer with over 1 year of experience in designing and deploying dynamic web applications. Expertise in building responsive and scalable solutions with various technology. Adept at problem-solving, working in agile teams, and delivering user-centric applications.

TECHNICAL SKILLS

- **Frontend**: HTML, CSS, JavaScript, React, Angular
- **Backend**: Node.js, Django, Express
- **Database**: MySQL, MongoDB
- **Tools**: Docker, Git, Firebase, AWS, GCP
- **Version Control**: Git, GitHub

PROFESSIONAL EXPERIENCE

Webbrains Technologies – Vadodara, India
Full-Stack Developer   Dec 2023 – Nov 2024

- Enhanced user engagement in the Fullmarks app by 40% by adding features such as quizzes and mock tests.
- Reduced registration time by 25% by streamlining user onboarding with Firebase authentication.
- Increased efficiency in admin tasks by 35% by developing an admin panel with bulk uploads and automated workflows.
- Optimized application performance by implementing caching strategies and database indexing, resulting in a 30% reduction in page load times.
- Integrated third-party APIs for payment gateways and analytics, enhancing the app's functionality and improving user experience.
- Led a team of three developers to design and implement a scalable architecture for the Fullmarks app, ensuring seamless updates and maintenance.

Netflix Clone

- Developed a full-stack web application using React, Node.js, and Express. The application mimics core features of the Netflix platform, including authentication, video streaming, and user preferences.

Game: Don't Touch My Present

- Built a Python-based game using Pygame, utilizing a finite state machine to manage game states and player interaction.

Traffic Management System

- Designed and developed a real-time traffic management system using Python, incorporating camera integration for live traffic monitoring and control.

EDUCATION

Ontario College Graduate Certification:-Computer Software and Database Development
Loyalist College, Toronto, ON   Expected April 2025

Bachelor of Technology in Computer Science and Engineering
Parul University, Vadodara, India   March 2023

CERTIFICATIONS

- **HTML, CSS, and JavaScript for Web Developers** – Johns Hopkins University
- **Web Development** – Dr. Angela Yu
